

Fusion Photography is so much more than just cameras & taking snaps on your wedding day. We work with you before, during & after your wedding to make sure your photos & your wedding are a phenomenal success. So what can you expect from the Fusion experience?

Before the wedding

Your first personal contact with Fusion will likely be at your consultation/information session. You will be warmly invited into our home studio & treated like our best friends, because if we choose to work with each other that is exactly what we want you to be! In fact if we don't hit it off we won't let you book us. For us it is of utmost importance that we make a connection with you & are "on the same page". We want you to feel you have a friend who understands you - not just some stranger with a camera.

The first thing you'll notice about us is how much we love our work. Being tragic romantics we have a passion for people's weddings that is quite infectious. We view it as such an honour & privilege to be invited into a couples special day & to work so closely with them.

We listen to you & your ideas. We discuss your wedding plans, your hopes & dreams. We will then help you sort through all the options available to you & give you lots of invaluable advice, taking the stress out of planning your wedding with simple & practical tips for organising a perfect day. In all the years of our experience shooting weddings we have seen everything that can (and often does) go wrong. We will help you avoid all the common mistakes & steer clear of any disasters so that everything runs as smoothly as possible. If you haven't already decided on your venue, celebrant, dress etc, we will also give you some further good advice to help you select the most appropriate vendors for your needs.

You will even find that many of our ideas can help you save money! The result being that you distribute your precious wedding budget so so as to manage your investment wisely. From your consultation on we are always at your disposal. Whatever dramas arise in the lead-up to your wedding day we are only a phone call away - if you need further advice or simply need to vent! It's like having your very own free wedding planner!

On the wedding day

The day of the wedding arrives & we are at the bride's house ahead of the scheduled time. You see the last thing we want to do is add to your nerves - we are there to put you at ease & help to calm you for the exciting ceremony ahead. Throughout the day we create an atmosphere of fun, romance & excitement so that you have the best day of your life. We will also be respectful & sensitive to the solemn elements of the day & help you keep on time & organised no matter what's happening!

There is no painful posing session & no cheesy smiling on a Fusion photo shoot. Using gentle & fun direction we bring out your natural beauty and personalities, disguising those annoying bits & accentuating your best features. We radiate lots of positive, lively energy to help you overcome any shyness & help you shine for the photos. When it comes to choosing locations, you don't have to worry - you can completely leave yourselves in our hands as we choose the best possible light & get our creative juices flowing. You can just relax, enjoy the day & revel in every moment. You can have complete confidence that we will capture every detail & aspect of the day - the emotions, the drama, the interaction, your loved ones. You will end up with the greatest choice of images to remember it all by. We will even gladly take requests from you or your guests for any "must have" photo opportunities that arise. We work hard, very hard, like our life depended on it, and with as much enthusiasm & care as if it were our own wedding. We will shoot your wedding as you see it - as the biggest day in your life!

After the wedding

When the wedding day is all over we are only just getting started. While you're off enjoying your honeymoon we commence with all the post-production of your images. Firstly, we sort through the thousands of photos that we came home with to eliminate all the blinks, duds etc. Next, we assess each image for quality, aesthetics & story telling/documentary value. Then each image remaining in the "final cut" (usually 500-1000) will be finished & polished to our exacting standards.

Each one is processed by hand & adjustments are made for tonal quality, colour balance, contrast & up to 10 other variables. This is where we will also give you the "model" treatment & really making you shine - various photos will be further enhanced with airbrushing, retouching or special effects for a glamorous finish. Using a full range of photographic techniques we turn good photos into great ones & great photos into works of art!

When it comes time for your custom designed & hand crafted album we do a lot of the hard work for you. We will sort through all your photos and choose the images that are best suited for your album. We will work with our graphic designers to create unique layouts for you that tell the story of your special day. And from there you can have as much input as you want in terms of tweaking or customising the layouts before your album goes into production. Unfortunately we can't take away all the hard (but also fun) tasks - you will need to choose the type of album that suits your style. We have a range of cover types, colours & materials, album size etc to choose from..... Once we are agreed on the final look of your album it goes into production. Each album is then hand-made by expert craftsmen who also work to exacting standards.

If you are ordering one of our premium couture albums here is what happens. First the layouts are printed on your chosen paper, inspected & trimmed. Art & textured papers are left in their natural state for a unique feel. Other papers are laminated with a special coating that protects your album pages from fingerprints & fading. The laminated pages are then mounted onto mattboards, which are stacked & trimmed to the finished size. The boards are machine sanded each side for 15 minutes for perfect edges. Your choice of cover material is stretched by hand & the final album then expertly assembled & perfectly bound with hand stitching. Only the finest materials are used. Your album will be nothing short of stunning - a family heirloom to treasure for generations to come. It will also be a coffee-table centerpiece that you'll be excited & proud to show off to guests when they come over asking that inevitable question... "can we see your wedding photos?"

So if you're ready to experience all that Fusion has to offer for your wedding day call us now on 0402 270 490. We're waiting by the phone ready to help you on your remarkable journey into married bliss.....
